

Name:EPDM solid rubber cord

Material:EPDM

Hardness:70 shore A. Custom hardness is available,range from 30 shore A to 85 shore A.

Color: Black.

Size: dimension 2/3/4/4.5/5/6/7/8/9/10/11/12mm and so on.

Temperature resistance: -50℃~150℃

Process: extrusion

Advantage: Ozone resistance, heat resistance, weather resistance and other aging properties.

Application fields: It is widely used in construction, automobile manufacturing, power equipment, water supply and drainage system and other fields. It can effectively prevent the penetration of water, air and dust, improve the sealing performance, and has good durability and electrical insulation performance.
