

Name:Viton FKM Gasket

Material:Fluorocarbon,fluororubber,FKM/FPM/Viton

Hardness:75 shore A. Custom hardness is available,range from 50 shore A to 90 shore A.

Color: Black. Common color:Green,Brown,Black.

Size: Custom according to your drawings or sample,we support 3D drawing format,such as .stp, x_t, dwg,etc.

Temperature resistance: -20℃~200℃

Advantage: Excellent heat and chemicals resistant,as well as ultra performance in ozone resistance and weather resistance.

Function:Mechanical seal

Application:Widely used in petrochemical industry,automobile,pump system,fluid industry,etc.
